

WHIRLPOOL AND TENNIS CHAMPIONS. NATURALLY PERFECT RESULTS.

Like the top women tennis players, Whirlpool is constantly seeking to improve itself by developing new ways of producing winning results. The latest star of the game is AquaSteam, the new washing machine designed for dynamic women with an eye for innovation. Just like the stars of women's tennis combine strength and natural ability to succeed, AquaSteam exploits the natural power of steam and water to achieve the best results ever. Tennis players know the importance of relaxation to revitalize between games. And so does Whirlpool: AquaSteam acts just like a spa for fabrics, revitalising clothes and ensuring perfect washing results. Top washing performances are guaranteed by 6th SENSE[®] technology: intelligence and sensitivity make for a winning combination both on and off court.
